Report Received by	: <a href="mailto:pat@rargroup.com.au">pat@rargroup.com.au</a>	Customer O/N	: ANNUAL
Next Inspection Due	: FEB 2026	Colour Code	: <b>RED</b>

This report follows the visual inspection of lifting gear at your facility by Matthew Lovett-Jeans. Inspections were conducted with reference to Company endorsed Work Instructions, Relevant Standards, Occupational Health & Safety requirements and Manufacturers recommendations to determine acceptance / rejection criteria's.

1. AS3776-2006 LIFTING COMPONENTS FOR GRADE T CHAIN
2. AS3775.1-2014 CHAIN SLINGS GRADE T

All items satisfying the above requirements were tagged or hard stamped to cross reference with this report.

Items listed as "R" (Repair) should be quarantined and repaired prior to further use.

Items listed as "F" (Fail) are not suitable for continued use or for their intended purpose and should be destroyed and discarded immediately. We cannot accept any responsibility for continued use

Items listed as "N" (Not Presented) were unable to be located on site.

Items listed as "P" (Pass) are suitable for continued use and can be put back into service. Should any replacement parts be required they can be supplied by reference to the item number of this report.

All items have been fitted with a **RED** colour coded identification tag. We shall contact you early FEBRUARY to arrange your next inspection. Should you require any further information please contact the undersigned.

Yours Truly.
